SUBJECT: Extension of Class Deviation—General Services Administration  
(GSA) Utilization Screening for Department of Defense (DoD)  
Property; Scrap

By memorandum dated February 24, 1998, I directed all military departments and defense agencies to deviate from the requirements identified in Table 45-1 at Federal Acquisition Regulation (FAR) 45.608-1(b) and from the requirements of 45.608-4 regarding limited screening of scrap items.

In January 1997, GSA amended Title 41, Chapter 101, of the Code of Federal Regulations, by adding Appendix H-29, that, in part, exempts scrap, except aircraft in scrap condition, from the GSA utilization screening processing. GSA extended this exemption until January 15, 2000. Therefore, military departments and defense agencies shall continue not to implement the limited screening requirements identified in Table 45-1 and FAR 45.608-4 for scrap items, except aircraft in scrap condition.

This extension of the class deviation is approved until January 15, 2000, or until the FAR is revised, whichever event occurs first.

Eleanor R. Spector  
Director, Defense Procurement
